

Artist of the Week

**MAX
WANGER**

Max constructed his first camera out of paper and scotch tape when he was seven years old. To this day, he is fond of simplicity and negative space, to less is more, to the beauty in the unexpected. Max's photographs have been exhibited and recognized all over the world. He currently resides in LA with his lovely wife and business partner, Margaux, and their kids, Dash & Quincy, a.k.a Rocket
