**SCOTT

SCOTT LISTFIELD

Scott Listfield is known for his paintings featuring a lone exploratory astronaut lost in a landscape cluttered with pop culture icons, corporate logos, and tongue-in-cheek science fiction references. Scott grew up in Boston, MA and studied art at Dartmouth College. After some time spent living abroad, Scott returned to America and, shortly before the real life, non-movie version of the year 2001, began painting astronauts and, sometimes, dinosaurs.
